Web Design & Development

I am a web designer/ developer with over 4 years of full time work experience in the field, and success in promoting web sites through strategy, design, and architecture. I am seeking a long term web development position with a professional web development company.

- Web/Graphic Design
 - Web Application Development through server-side programming
 - W3C Compliant Markup development with added attention to semantic coding practices.
 - LAMP and WAMP
-

RELEVANT SKILLS

- **Graphic Design** – Creation of website layouts, logos, mockups and graphic manipulations/optimizations. Over 6 years experience working in Photoshop
- **WAMP/LAMP** – Comfortable developing on Linux and Windows platforms as well as performing administrative tasks.
- **XHTML/CSS** – Semantic, W3C valid front end code, hand slicing and coding psd to XHTML/CSS, integration into various platforms such as Wordpress, Drupal, Joomla and Magento.
- **PHP** – Building custom applications with or without MySQL databases. Utilizing mod_rewrite for SEO, practicing proper code formatting, documentation and modularization as well as object oriented programming in PHP5. Using the MVC design pattern to keep code easy to maintain and extend.
- **JAVASCRIPT** – jQuery javascript library implementation along with the many plugins available, integration of other libraries (if needed) such as Mootools. Using AJAX to reduce server load and improve overall user experience. Unobtrusive integration which allows for safe degrading.
- **MySQL** – Administration and testing through PHPMyAdmin and MySQL command line interface, relational tables, MySQL functions, table joins etc.
- **OPEN SOURCE APPS** – Customizing and integrating Wordpress, Joomla, Drupal, and Magento amongst others.

- **OTHERS/MISC** – Linux server administration, Creative Suite 4, Aptana Studio (Eclipse), Subversion, vim/nano. MS Office, XML, CodeIgniter PHP framework, various APIs such as Google Maps and Facebook/Twitter.

RELEVANT WORK EXPERIENCE

Towerbridge Technologies, LLC – *towerbridgetech.com* – *Employed 02/08 - Present*
Information Technology service provider. I work as lead web designer. Maintain over 140 website clients needs including maintenance and new site creations on over 200 domains. Develop custom applications and websites to fit the needs of surrounding small and medium sized businesses. Responsible for creating and the continual expansion of a custom in-house CMS built upon the CodeIgniter PHP framework. I also worked as project manager, did SEO, and marketing, and other day to day tasks such as customer support and server administration. Example public websites include www.towerbridgetech.com, www.vincennescvb.org, www.drrobertbailey.com, www.mplawoffices.com, www.echowireless.net and several others. I have also built a number of internal web applications for the city and various businesses around Vincennes.

Loadsys Consulting - *loadsys.com* - *Employed 01/28/08 - Present*
Web development company located in Chicago, IL. I work as a freelancer and am responsible for coding PSD designs into HTML/CSS code and then integrating it into custom CakePHP application, Magento themes and Wordpress themes. Various websites include www.creativeleague.com, www.protomine.com, www.naturespasture.com, www.educationunlimited.com and several more.

Garrett Container Systems, Inc – *garrettcontainer.com* - *Employed 08/07 - 10/07*
Military Container manufacturer in Accident, MD. I was hired to redesign their website and also setup an internal E-Commerce system to sell their products online. Duties included graphic design, stock photography, and building a custom catalog with Joomla. Their company has since then hired a new designer who has changed the site to their own design with static html.

APS Computer Solutions - *seeaps.com* - *Employed 06/06 - 08/07*
Family owned computer service provider from Sumner, IL. I was responsible installing, configuring, and maintaining computers, network devices, and software for businesses and residential customers in Lawrence and surrounding counties in IL. Other duties included web design and development, client support, and remote assistance calls.
