» EMPLOYMENT

February 2008–present Senior Web Designer

TowerbridgeTech.com

Responsible for designing and developing dynamic websites, applications and websites to fit the needs of surrounding small and medium sized businesses. Responsible for creating and the continual expansion of a custom in-house CMS built upon the CodeIgniter PHP framework. I also work as project manager, do SEO and marketing, and other day to day tasks such as customer support and server administration.

Example websites include www.towerbridgetech.com, www.vincennescvb.org, www.fbcvin.com, www.asbi.org, www.echowireless.net. Primary skills include HTML/CSS and Object Oriented PHP on Windows and Linux. Also administer web server and host about 160 customers.

2005-present Freelance

- Loadsys Consulting (www.loadsys.com)

Slicing and coding many PSD designs into HTML/CSS. Some include integration into existing applications such as Wordpress.

- JasonAdkison.com (www.jasonadkison.com)
